THE CHALLENGE

Though diverse, a few of Knights BPO's clients share a common challenge: how to improve cash flow by reducing overdue debt. With some industries predictably slower to pay than others, Knights needed a solution to bump clients to the top of the 'to-be-paid' list.

SOLUTION

-  **Tracking and reporting:** Knights BPO can report payment progress back to their clients because every invoice is tracked from issue to payment.
-  **Payment reminders are automated** so BPO can efficiently reach a high volume of debtors on behalf of their clients.
-  **Resourcing accounts receivable** is done with automation, a cost-effective solution for small-to-medium business clients.
-  **AR tasks are scheduled** so the Knights team have clarity around debtor management tasks allocated to them.

RESULTS

-  Within three months, one Knights BPO client stopped using credit financing to cover cash flow shortfalls, paid back its financing loans plus interest, and became cash flow positive.
-  Knights BPO saves an estimated 5 hours of debtor management duties per week for each client using ezyCollect.
-  Within three months, one Knights BPO client has slashed its overdue debts by as much as 75%, with only 10% of debts now overdue.

Within three months, one Knights BPO client had slashed its overdue debts by as much as 75%.
